

Safety Rules for Family Friendly Internet

Prepare a time schedule for using Internet and follow it religiously. Make sure that it doesn't interfere with other activities.

Always use a good mix of alphabets and numbers to create a strong password for all internet accounts.

Be Alert before downloading or installing any software or application. Avoid doing anything that could possibly cause damage to the devices like computer, smartphones and tablets. It can jeopardize the network privacy.

Always follow an ethical and responsible online behavior. Ensure not to use internet to spread gossip, rumors, fraud and also not to bully, or threaten others.

Always avoid responding to mails, messages or websites that are sexually obscene or has threatening content.

Always raise concerns in case of any uncomfortable online information.

The logo for HOME, where the letter "O" is replaced by a stylized circular graphic with concentric lines and a central dot. The letters "H", "M", and "E" are in a simple, bold, sans-serif font.
